TASTEFUL

UNIQUE PRESENTATION

Every bottle of wine deserves to be shown to its best advantage! Three different display levels enable you to showcase your wine bottles in an upright or tilted position, thus allowing your customers to read the labels more easily. There's even room for large boxes. Make sure your customers can see at a glance how much variety you offer!

A HINT OF NATURE

We offer wooden crates in two sizes: a larger version for wines that sell in bulk, and a smaller version for showcasing the choicest brands.

MODULAR DESIGN FOR ALL TASTES

Adjust your wine display to your customers' preferences and needs. Combine the shelves with wooden crates and add a hint of prestige to the choice of wines you display.

TegoWine

Wood veneer and numerous display options will enable you to present your wines in style and underline their quality in a display that is a joy to behold.

Thanks to the clear, functional design, customers can see and examine each and every bottle in the upright and tilted sections. As a result, they can make an informed choice and buy the perfect wine for the occasion in question. Moreover, browsing the wine section will be an enjoyable experience.

Tegometall's sturdy displays have a high load-bearing capacity and are extremely durable.

- Functional
- Versatile
- Exclusive
- Easy handling for customers and staff

■ Zuverlässigkeit zählt.

■ Reliability matters.
